

Dear Hiring Manager,

I am applying for the SQA Intern position at Gain Solutions Ltd.

I have a strong academic background in Computer Science (BSc completed, MSc ongoing) with knowledge in Software Quality Testing, test case design, and debugging. I am familiar with tools like Postman and have experience working with APIs, web applications, and identifying issues through practical project development.

My development experience with Laravel, JavaScript, and REST APIs helps me better understand system behavior, making me effective in testing and ensuring software quality. I am detail-oriented, quick to learn, and highly motivated to build my career in Software Quality Assurance.

I would welcome the opportunity to contribute and grow as part of your QA team.

Sincerely,

MD. Assiqur Rahman
